TO TELEPHONE THE DEMOCRAT CALL NO. 180.
SATURDAY, JUNE 24

If Judge Anderson wants to be as accommodating as usual he will at once notify his successor to "secure his bond."

How would it fare with the Hon. H. C. Sanford were Senator J. Park Alexander to become a candidate for Representative?

The Akron Democratic club is enterprising. It will send delegates to the convention of Ohio Democratic clubs at Columbus, July 7. The delegates will be well entertained.

The deficit in national expenses for the year just ended amounts to \$100,000,000. It would have been \$200,000,000 but for the war taxes. Send the news to Hanna. It will help his rheumatism.

THE DEMOCRAT's correspondent at Lake wants to know how it is that Akron has so many "Colonels," and that all of them are more or less successful in politics. The Hon. Geo. W. Sieber is the latest addition to the ranks of fighting Colonels. Ask him.

No magazine in America has made greater progress within the last year than Self Culture, published by the Werner company, at Akron. The July number appears in an artistic cover, and every page contains entertaining, instructive and for the most part, illustrated matter. The publication is rapidly building up a satisfactory advertising patronage.

ONE of the prominent business men of the Falls, a friend to Senator Alexander and a delegate to the Painesville convention, remarked on his way home that he would never attend another district convention as "too many delegates were willing to sell their votes for a meal or railroad ticket." If this was done at the Painesville convention, some of the delegates must have held their influence pretty cheap.

THE Republicans of Ohio, or, to be more exact, Mr. Hanna, have nominated a man named Sheets for Attorney General and he has just been interviewed on the subject of trusts. He says he cannot tell what his policy toward the trusts would be in the event of his election. Unfortunately for Mr. Sheets, his lack of positiveness on this subject is not shared by the people. They know what was meant by the turning down of Attorney General Monnett.

SECRETARY ALGER expects to get into the U. S. Senate by opposing the trusts—with the possible exception of his favorite, the beef trust—and by advocating the election of Senators by direct popular vote. When a man who, like Alger, has got the bulk of his millions through the operation of trusts, and who is unpopular that he could not get within hailing distance of the national capitol if Senators were elected by direct vote of the people, joins the ranks of the reformers, it is about time for the people to get under cover.

FOWLER'S SANITY IN QUESTION

Application For Duquesne Extradition Heard In Detroit.

DETROIT, June 24.—The doctors disagreed in their testimony in the hearing upon application for extradition from New York of Mr. and Mrs. Charles H. Duquesne of Cincinnati, charged with the abduction from this city of their nephew, Moses Fowler Chase of Lafayette, Ind., heir to property worth upwards of \$50,000.

The youth at issue for the governor of Michigan to decide whether young Chase was or was not mentally incompetent on June 5, the night of which he left Detroit for Cincinnati with the Duquesnes, that date being one day after the youth became of age.

BRITISH PROTECTED U. S. VESSELS.

Cause of Trouble Between British and French in Newfoundland Waters.
ST. JOHN'S, N. F., June 24.—The friction between the colonial government and the British command on the one hand and the French naval officers on the other arose over the action of the British warships in protecting American fishing vessels while exercising berring for bait along the French treaty coast.

The American shipmasters complain bitterly of the treatment they have received from the French.

Inheritance of Health.

There is, it is true, as great an inequality in the inheritance of health as in the inheritance of wealth or brains. Some are born with a fortune of vigor and soundness so large that not a lifetime of eager squandering will leave them poor, and others enter the world paupers of need so dire that no charity from medicine can ever raise them to comfort, but most of us have just that mediocre legacy of vitality which renders us undistinguishable units in the mass. It lies in the hands of each to improve or waste that property, as he chooses, for there are self-made men physically as well as financially; those who, because of ancestral wastefulness, have only a sixpence of health and turn it into a fortune, and there are spendthrifts of health who come to grief. The body is the realm where a wise and frugal ruler brings happiness as surely as a foolish one insures distress, and wisdom here, as elsewhere, lies in learning and obeying natural laws.—North American Review.

Johnnie's Choice.

"Which would you rather, Johnnie," asked the fond mother, "have the measles and stay at home, or be well and go to school?"

"Rather have the measles and stay at home; but then I'd like to go to school too," said Johnnie.

"But why, darling?" urged his mother.

"So I could give all the other fellows the measles."—T. R. Bits.

A Penalty of Knowledge.

"It seems to me," remarked the high browed theorist, "that people positively resent education. A man who is more than ordinarily wise is usually left to himself as much as possible."

"Benjamin you are right," answered Miss Cayenne. "When a man knows such a very great deal, he makes one apprehensive. There is no telling when he may be going to sit down and try to tell it all."—Washington Star.

HIS STAY EXTENDED

The Boy Phenomenon Compelled to Prolong His Stay Two Weeks More

Because of the Many Remarkable Cures He Has Already Performed.

A Chance the Sick May Never Have Again to Be Cured by Vital Magnetism.

Truth, honesty and uprightness is a trinity of virtues that should be the guiding star of every man in his dealings with the afflicted. It is only by such methods can their confidence be won and retained, for they are nearly all disgusted or discouraged in trying to get well, and little wonder. But that is the pedestal upon which the record of the Boy Phenomenon is reared, and he points with pride and satisfaction to his six years professional work, which record and reputation can never be assailed, for it is as pure and spotless as the driven snow and towers like a shaft of ivory to the clouds.

Realizing there are still a large number of the afflicted who are yet skeptical of the true merits of this advanced system, even though two public exhibitions of a convincing nature have been witnessed by 3,000 people and that dozens of our oldest citizens are every day publishing their testimonials in our daily papers vouching for the wonderful benefits derived—still, there are some who doubt the permanency of these cures.

To convince this class that a cure by vital magnetism is more positive and lasting than by any other system and at the same time to have the largest number possible of the sick and crippled as walking advertisements of what magnetism has done for them, and knowing that many besides those who have already been examined could be cured in one or two treatments, the management have decided to extend his stay in Akron two weeks more. Therefore, those who did not think he would remain here long enough for them to be cured, may be assured of his remaining a sufficient length of time to fill all his appointments.

When sick is the time we need the best advice and treatment; therefore we say inform yourself you who are sick, visit his reception parlors any day and witness with your own eyes the healing of your friends; go to their homes, talk with them and then act as your best judgment dictates.

This paper on Tuesday will publish the signed testimonials of five more citizens who have been cured of paralysis, lumbago, deafness, etc., and dyspepsia by the Boy Phenomenon, all of whom had been pronounced incurable by all other methods.

The benefit of those who are unable to have consultation during the day the office hours on Tuesday and Wednesday will be extended from 10 a.m. to 5 p.m. and 7 to 8 p.m. at the Buchtel hotel, entrance on Main st.

ORANGE STATE WARLIKE.

Money Voted For Increase of Armament May Help Trainees—British Troops Under Orders.

BLOOMINGTON, Orange Free State, June 24.—The volunteers of the Orange Free State voted \$20,000 for the purchase of artillery, tanks and other military supplies. A resolution was adopted directing the government to adopt the Mauser rifle as the national weapon. A proposal to vote \$22,500 for ammunition was discussed, but the debate was adjourned.

Trade with Cape Town and Johannesburg was at a comparative standstill.

The Germans who were in sympathy with the Transvaal were holding meetings, at which they adopted resolutions requesting Germany to intercede in behalf of Pretoria.

London, June 24.—The Shropshire regiment was ordered to hold itself in readiness for immediate embarkation for Cape Town.

The secretary of state for the colonies, Joseph Chamberlain, in the house of commons, in answering a question, denied the government was reinforcing the British troops in South Africa to a total of 40,000 men.

DUE TO COMPETITION.

Farmer's View of Cause of Low Prices on Products.

WASHINGTON, June 24.—Richard Coles, a farmer of Salem county, N. J., was before the industrial commission. He said the farmers of New Jersey had no special complaint, though there was a general feeling that conditions might be improved. Prices for their products were generally lower, while wages for farmers were higher than formerly. Within the past 25 years farms in his section had depreciated in value about 50 per cent.

The depreciation in the price of products was not so great. He was inclined to attribute the lower prices to competition from the west and south. He advocated a tariff on farm products, putting them on the same basis as the manufacturers. Such a policy would result in saving to the United States the \$350,000,000 or \$400,000,000 now sent abroad for articles of an agricultural nature.

GOLD EXPORTING NOT ALARMING.

Secretary Gage Attached No Importance to Engagement of \$4,000,000.

WASHINGTON, June 24.—Secretary Gage attaches no importance to the engagement at New York of \$4,000,000 in gold for export. "It is a mere incident," he said. "It is possible that the exportation of the gold which was paid to Spain in the settlement of our treaty obligations disturbed the equilibrium somewhat and has necessitated some considerable shipments to again restore the normal conditions of exchange."

Treasury officials are of the opinion that the balance of trade between this country and Europe has little or no influence upon gold shipments. It has come to be a settled conviction that large gold movements are controlled at home and abroad. The shipments at this time are not regarded as indicating any unfavorable conditions in this country.

DEWEY FOR EXPANSION.

Urged a Minneapolis Man to Impress Such Views on Every American Citizen.

MINNEAPOLIS, June 24.—George H. Holden, returned from the Philippines, told of a talk with Admiral Dewey in Manila, during which the latter expressed expansionist convictions of the strongest type. The admiral requested Holden to give an opinion on the future course of the government in the islands, and when his caller declared that the American people couldn't afford to withdraw, that they were building for the future and not for the present, and that they owed it to the world to remain, he heartily approved of the words.

"Impress your view upon your friends and every American citizen," said Dewey.

Holden was asked by the admiral to visit a certain member of the foreign relations committee of the senate and urge him to have a law passed extending citizenship to the 69 China boys who participated in the battle of Manila bay.

"They were good enough to fight for us and their aid was enough to be American citizens," said Dewey.

FOR MISSES BARBER AND DUNCAN.

Reception Given For Them at Adams President's Plans For Today.

ADAMS, Mass., June 24.—The assembly club held its first meeting of the season at Forest Park pavilion last night, in honor of Miss Barber and Miss Duncan of the presidential party. To the reception had been invited the most prominent among the young society people of Berkshire county, and in every way, was a delightful occasion. The pavilion was elaborately decorated with lanterns and colored lights. Late in the evening the president, Mr. and Mrs. Abner McKinley and Mr. W. B. Plunkett, were to the park and spent a short time at the assembly.

The plans for today include a reception to the people of Adams by President McKinley at Mr. Plunkett's house. The president will visit the memorial building and public library, of which he laid the cornerstone on his previous visit.

Schley Expected as a Guest.

PHILADELPHIA, June 24.—Admiral Schley is to be the guest of the city of Chester July 4 and has consented to make an address to the citizens on that day.

\$80,000,000 B. K. E. TRUST.

List of the Concerns Which, It Was Said, Would Constitute the American Bicycle Company.

NEW YORK, June 24.—The members of the newly-formed American Bicycle company, the so-called bicycle trust, held a meeting at 280 Broadway, held a meeting at the Waldorf-Astoria to arrange final details.

This is a list of the concerns which it was said would constitute the American Bicycle company:

Bicycle manufacturers: Pope Manufacturing company, Hartford; Western Wheel works and Gormully & Jeffery Manufacturing company, Chicago; H. A. Loomer & Co., Cleveland; A. G. Stevens & Bros., New York; A. F. Easton & Co., Monarch Cycle Manufacturing company, Chicago; Crawford Manufacturing company, Hagerstown, Md.; A. D. Meiselbach, Milwaukee; Indiana Bicycle company, Indianapolis; E. C. Sterns & Co., and Barnes Cycle company, Syracuse; Eagle Bicycle Manufacturing company, Torrington, Conn.; Black Manu- facturing company, Erie, Pa.; Grand Rapids Cycle Manufacturing company, Grand Rapids, Mich.; Acme Manufacturing company, Reading, Pa.; White Sewing Machine company, Cleveland; Ames & Frost, Chicago; Viking Manufacturing company, Toledo; Shelby Cycle company, Shelby, O.; Fanning Cycle Manufacturing company, Chicago; Columbus Cycle company, Columbus; Fay Manufacturing company, Elkhart, O.; Geneva Cycle company, Geneva, O.; Milwaukee Engineering company, Milwaukee; Colton Cycle company, Toledo, and the New Buffalo Wheel company, Buffalo.

STABBED BY ANDY STEWART.

C. W. Sailor Seriously Hurt in an Altercation at Ohiopyle.

OHIOPOLE, June 24.—In an altercation Wednesday night C. W. Sailor, the well-known merchant of this place, was cut and seriously injured by Colonel Andrew Stewart. Sailor was slashed across the abdomen, the wall being penetrated and opened by a four-inch gash, permitting the entrails to protrude. He also received a slight cut on the breast.

Sailor was removed to the Cottage hospital for treatment. Late reports from the hospital state that he is getting along as well as could be expected, though his condition is very serious.

It is reported the trouble between Stewart and Sailor was the alleged attempt of Stewart to Mrs. Sailor. They are said to have quarreled about the preceding evening.

FUNERAL OF LIEUT. LANSDALE.

Bishop Moreland Delivered the Sermon, Naval and Army Men Present.

SAN FRANCISCO, June 24.—The funeral of Lieutenant Philip Van Horn Lansdale, who was killed at Samoa, took place from St. Luke's Episcopal church. Bishop Moreland delivered the sermon. The church was crowded, the navy and army being largely represented.

The body of the brave lieutenant was removed from the cruiser Philadelphia under a naval escort similar to that which attended the body of Ensign Monaghan Thursday. American and British flags were displayed at half-mast in many places. The body was interred at Cypress Lawn cemetery, the naval officers, land and men attending.

TENTH'S MAIL IS HELD.

Postmaster General Ordered It Kept at San Francisco.

SAN FRANCISCO, June 24.—The post master general ordered that mail matter addressed to members of the following regiments be held at San Francisco in- stead that they were all to be mustered out of service very soon:

California heavy artillery, Utah artillery, First California infantry, First Colorado infantry, First Idaho infantry, First Montana infantry, Thirteenth Minnesota infantry, First Nebraska infantry, First North Dakota infantry, Second Oregon infantry, Tenth Pennsylvania infantry, First South Dakota infantry and the First Wyoming infantry.

Will Maintain Caution.

WASHINGTON, June 24.—With regard to the question of the maintenance of cantons at the United States army posts, the acting secretary of war said so far as the department is concerned the matter is settled in favor of maintaining the present system. Reports from officers showed that from every standpoint the army cantons as now operated is infinitely better for the interests of the soldier than the old system of post traders and low groceries on the outskirts of the posts.

ATTACKS EXPECTED.

Troops at San Fernando Slept on Their Arms.

AGUINALDO HAS TAKEN COMMAND.

Large Force Massed Apparently With the Intention of Again Trying to Take the Place—Transport, When Aground, Was Surrounded by Filipinos.

MANILA, June 24.—Aguinaldo did not seem to be satisfied with the attempt of the insurgents to retake San Fernando and he took command of General Luna's army and massed the largest rebel force yet mobilized, 4,000 men from the Antipolo region. Thursday night his men wounded two members of the Seventeenth regiment. General MacArthur's men were constantly on the alert to repel any attacks by the rebels sleeping upon their arms.

The general sincerely hoped that the Filipinos would give him another chance for a battle, for the soldiers really enjoy an opportunity to fight them when they can do so without wading through swamps to reach them. Railway trains between Manila and San Fernando were stopped for several days while permanent repairs were being made to the bridges along the route, but Friday traffic was resumed.

The transport Centennial, which arrived here, had an exciting experience while rounding Point Engano, on the northern coast of Luzon, on her way to this port. She struck a rock on Wednesday and remained fast for several hours, during which time she was surrounded by swarms of natives in canoes who became menacing. Captain Eagle, who commanded the transport, was compelled to throw overboard 100 tons of supplies in order to lighten ship sufficiently to get her aloft. Before this was effected the Filipinos had towed the cases ashore and were fighting over the spoils.

The cruise Baltimore recently grounded at the same point, but the natives feared to approach her.

MARINETTE, Wis., June 24.—High D. McGoshan, for years a resident of this city, serving as a volunteer in Company H, First South Dakota volunteer infantry in the Philippines, in a letter dated at Manila, May 12, and addressed to Joseph Laurman, a local merchant, said: "Two days after San Fernando was taken our regiment had but 190 men on the line, the remainder being dead, sick or wounded. General MacArthur complained of the number of men sick, other regiments being in the same shape as ours, and Major Potter was sent into Manila to rush men to the front."

"Of these 30 were unable to reach the depot, a mile distant, many of them fainting on the way, some 25 or 30 ultimately arriving at San Fernando in worse condition than when sent to Manila, the others being ordered back by surgeons along the line of railroad, who saw at a glance that they were in a precarious condition."

"I can prove by the record of the hospital that men were ordered to the front whose temperature was 103 degrees, and men
